# Healthcare for everyone.

Reich Healthcare is a fully independent and leading Private Medical Insurance broker. We have access to a full range of products from all the major health insurance providers in the UK and, as a preferred intermediary, we can use our buying power to get some of the best rates available.

Choosing the right healthcare scheme and dealing with healthcare providers can be a time consuming process. Why bother? Our services are free and without obligation. We will provide you with a comprehensive report summarising the benefits available from those insurers whose products match your requirements. We will help you through the maze of options available from healthcare insurers so you can make the right decision in selecting the package which provides you with the best value for money.

Furthermore, we look after our clients' ever changing healthcare needs and aim to enhance the available benefits, whilst controlling cost. At each and every renewal of your policy we conduct a thorough market review to ensure that your cover remains competitively priced.

Making the right choice on your healthcare insurance is a critically important decision.

**Reich Healthcare is the right choice.**

### Corporate Healthcare

Private Medical Insurance is one of the most important tools for reducing employee absenteeism and aiding employee retention. The advantages of choosing when, where and with whom treatment is arranged can be invaluable for forward planning. It is therefore imperative that you utilise a specialist and experienced intermediary.

Our consultants are acknowledged as some of the leading healthcare experts on Group Private Medical Insurance, and have a wealth of experience in dealing with small, medium and many well known UK organisations. We provide clear and impartial advice on a wide range of employee health and welfare issues based upon the individual requirements of the company.

We take the time to ensure that we understand your business requirements and corporate strategy, providing solutions which meet your needs. We will explore all of the many options available and use our knowledge to design a unique plan specifically for you.

Almost invariably we can negotiate more competitive terms than those in place before our involvement.

### Additional Products

- International Private Medical Insurance
- Travel Insurance
- Health Screening

### Individual Healthcare

Private Medical Insurance for individuals is not designed to replace all the services offered by the NHS, but it can help to reduce the waiting time for which NHS treatment has such a poor reputation.

However, there has been such an explosion in the number of healthcare policies available in recent years that the choice can be bewildering.

We will design an individual package for you and your family to suit your budget.

We can also provide specific advice to members of company schemes who may be leaving or retiring.

### Dental Plans

As it gets harder and harder to register with an NHS dentist, patients are finding themselves travelling long distances for even a basic check-up.

Private Dental Insurance gives employees the option of finding a dentist close to home or work, reducing the disruption caused by staff taking time off to attend dental appointments.

Dental Plans can be offered as a stand-alone benefit or as bolt-ons to existing Private Medical Insurance policies.

Dental cover represents a tangible benefit that employees are reminded of several times a year and provides peace of mind that comes from knowing that you won't be hit with a massive bill. In some ways, it may be perceived as a greater benefit to the average employee, whilst costing the employer relatively little.

### Cash Plans

A Health Cash Plan is an inexpensive policy that pays cash sums towards the cost of a wide range of treatments.

With low cost premiums, it offers affordable health cover for everyday requirements.

Most plans include payments toward in-patients hospital treatment, specialist consultations, routine optical and dental treatment, physiotherapy and maternity, amongst other things.

A Cash Plan has the advantage of not requiring a medical before joining. Children are usually included free of charge and premiums do not increase with age.

There are a large number of low-cost products available and Reich Healthcare can help you find the best one to meet your requirements.

### Stress Counselling

Many employers recognise the increased prevalence of stress amongst their employees and its impact in the workplace.

In response to this, Reich Healthcare can arrange a 24 hour confidential counselling and advice line that provides access to professional help on a range of issues including stress-related, legal, medical, monetary and lifestyle problems.

Contact us on 0161 834 8877 for more information

**Our services are free and without obligation. Making the right choice is an important decision for your business - our involvement can only be to your benefit... Remember you have nothing to lose.**

The Reich team are on hand to ensure your scheme runs smoothly and our service continues long after the policy is sold.

#### Claims Support

Should you need to make a claim we will help you through the process offering our fullest support. This includes dealing with any shortfalls and disputes which may arise, along with any day to day queries. Why be alone in the event of a claim? Reich Healthcare are here to help you, whenever required. Our claims skills are second to none.

#### Client Support

Whether you have an individual plan or are a member of a large corporate group, our team offer a friendly and efficient service. We provide dedicated administration management and assistance which includes checking documentation, additions and deletions, liaising with insurers and resolving any general queries relating to your arrangement.
